food science

Never miss a word

**AT SCHOOL, STUDIES
AND WORK THANKS TO
LIVE TRANSCRIPT**

SWISS TXT

Why

IS LIVE TRANSCRIPT INDISPENSABLE

Giuseppe is doing further training, Roxanna is studying at the Höhere Fachschule and Manuela is working for a chemical company. All three are hard of hearing and benefit from accessible communication. Thanks to live transcript from SWISS TXT, spoken words are transmitted live in text form so that they can **easily follow** lessons, studies or important meetings. This service is a great relief, especially when there is background noise, unclear speech or complex content. This example clearly shows how **essential live transcript is for participation** at school, during studies or at work.

How

DOES LIVE TRANSCRIPT WORK

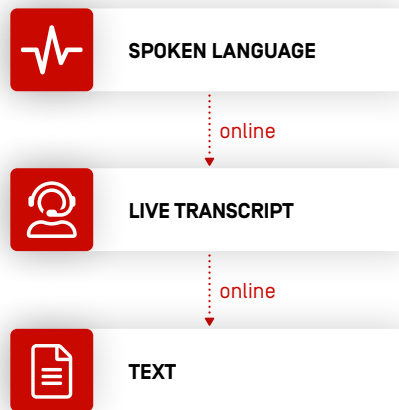

During lessons, lectures or meetings, **trained respeakers follow the session online and transcribe what is being said live into text form**, directly to the user's device. This allows Giuseppe, Roxanna and Manuela to read along without stress, without having to focus on listening or taking notes.

This service works discreetly, regardless of location, and without the respeaker needing to be onsite in person. All you need is a stable Internet access, a tablet or a notebook.

What

DOES LIVE TRANSCRIPT OFFER

Our service – from spoken language to text – supports deaf or hard of hearing people at school, during their studies, at work or during events. By providing clear and comprehensible content in real time, **live transcription prevents misunderstandings and enables inclusive communication.**

PROs

AT ONE GLANCE

- + **possibility to follow better**
at school, during studies or at work, also under difficult acoustic conditions
- + **easy to integrate**
compatible with Zoom, Teams, Skype etc.
- + **flexible and easy to use**
according to needs and location
- + **online, onsite and hybrid**
- + **can be booked at short notice**
with fast replacement guaranteed if needed
- + **free of charge**
official cantonal sponsors usually cover the costs
- + **meets current standards**
in terms of safety and user-friendliness

Giuseppe's learning experience.

Roxanna Teier

is studying
to become a
technical building
designer (HF)

*«Of course, I also need
to concentrate when I read,
but the live transcript
allows me to scroll back.
It's a huge relief.»*

Why

LIVE TRANSCRIPT FROM SWISS TXT

Respeakers at SWISS TXT are qualified professionals with specialised training. Many of them also have years of experience in live subtitling for Swiss television.

Thanks to their professional expertise, they transcribe spoken language precisely and comprehensibly into text - even dialects, foreign languages or complex content. **The quality is therefore significantly higher than that achieved with automatic systems.**

Our experienced team supports users from the technical set-up through to the event and is always available to answer questions – including live via chat.

Rely on SWISS TXT's expertise for accessible, inclusive communication – at school, during studies, at work or public events. We support you right from the start.
